

JVC & Ikelite Video Package

JVC Picsio GC-FM1 Compact Video Camera

Camera Features.

Image stabilization and an 8mp digital still mode really set this camcorder apart from other cameras of its kind. The FM1 accepts SD or SDHC memory cards so there's virtually no limit to the amount of video and still images that can be recorded without downloading to a computer.

Standard .MOV and .JPEG files are recognizable by most editing software packages whether you use a PC or Mac. The camera runs over 90 minutes on a charge.

- 1080P/30fps HD Video Recording
- 8 Megapixel Still Image Recording
- Image Stabilization
- 2.0" Color LCD Monitor
- 4x Digital Zoom
- HDMI and AV Output Terminals
- Direct Sending to iTunes/YouTube
- Records on SDHC/SD Cards (not included)
- Includes USB Cable, AV Cable and Hand Strap
- NTSC and PAL Video Output Modes

Ikelite Housing

Ikelite Housing & Camera Package #5650.02

Housing Only #5650.01

Includes a 1cc tube of silicone lubricant, lanyard and UR/Pro color correcting filter.

Dive into underwater videography with this incredibly compact and simple to use combination. The Compact Video housing is high quality, built to last, and backed by Ikelite's long-standing reputation for excellence. A full line of accessories allows you to really get creative with your underwater video. All camera controls are fully functional through the housing and depth rated to 200ft (60m). Easy open latch and drop in camera loading make set-up a breeze.

Size and Weight.

5.5" wide x 4.25" high x 3.0" deep including controls and lens port

14cm x 11cm x 7.6cm

Less than 1lb (0.45kg) above water.

Neutrally buoyant underwater.

Spare Parts.

#0132.45 Spare Main Housing O-Ring

#5020 Silicone Lubricant in 4 1cc Tubes

External Color Filters.

The included UR/Pro color correcting filter for tropical blue water settings replaces some of the reds and more natural tones that would otherwise be lost underwater. Effective in relatively shallow, sunny conditions. The #6441.71 removable color filter is available separately for use in green water settings.

Accessories

Pro-V8 LED Video Lite.

When the sun isn't quite there for you, the Pro-V8 LED Video Lite gives all the light you need to bring out the ocean's true colors. The Pro-V8 features a warm, even 45° beam over a whopping 10-hour burn time. The flex arm allows the light to be repositioned effortlessly. Requires the #9523.51 Video Compact Tray, sold separately.

External Accessory Lenses.

An external wide angle conversion lens increases angle of coverage so you can get much closer to your subject while still fitting everything in the frame. By reducing the amount of water between the subject and your camera lens, the resulting image will be more crisp and colorful. Attach 67mm threaded #6420 Ikelite W-20 lenses using the #9306.78 Port Adapter.
